

Customer service at its very best: The MEYLE-HD BMW control arm kit. to fit BMW 5 | 6 Series models

The MEYLE-HD front axle repair kit comes with all required control arms including a full set of mounting parts. Professional, swift and cost-effective repairs – this is the essence of customer service excellence. The MEYLE-HD repair kits include the following:

- Control arms
- Ball joints
- Stabiliser links
- Control arm mounts
- Full set of corrosion-resistant mounting parts

The ball joints and control arm mounts included in the

kit contents are also available individually for separate replacement.

Also included: the variably adjustable BMW control arm [MEYLE no.: 316 050 0044/HD, short no.: MCA0470HD with U.S. Design Patent No. 723,441]. What makes the MEYLE-HD control arm different is that the ball joint can be adjusted to three different positions, meaning that it can be used for three different original part versions. This keeps inventories lean and correct part identification simple. A solution designed to save time and cut costs.

MEYLE no. 316 050 0080/HD
Short no.: MCA0470HD

**Includes the
variably adjustable
MEYLE-HD control
arm to fit three
different original
components!**

One control arm to replace its three OE equivalents. Clearly marked adjustment options:
