

MEYLE-HD: Better than OE.  
**Profile optimized inner sleeve**

**OE part**

Simple profile of inner sleeve

**Problem**

- Failure of the rubber to metal bonding on the inner sleeve due to intense strain

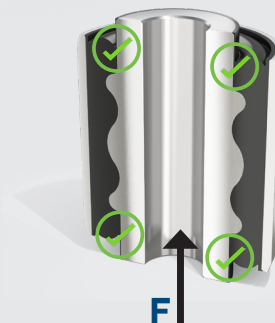

**Effect**

- Shorter lifetime and premature failure
- Impaired driving safety

**MEYLE-HD**

Profile optimized inner sleeve

**Solution**

- Profile optimized inner sleeve withstands greater forces due to improved rubber to metal bonding

**Advantage**

- Significantly longer lifetime
- Longer driving safety
- 4-year warranty
