

PETROL ADDITIVE

OILS & CHEMICALS | 29008

Function

The main function of the VAICO Petrol Additive is to clean the whole petrol system from gasoline tank to the engine. The deposits will be removed and it prevents the oxidation on nozzle needle. This ensures an optimal performance of the fuel supply system.

Purpose

- cleaning the fuel system
- corrosion protection
- fuel savings
- improvement of the CO₂ value

SYMPTOMS

- engine jerking
- rough idling
- bad exhaust emissions
- loss of power

REASONS FOR FAILURE

- damaged injectors

CONSEQUENTIAL DAMAGES

- no engine start possible due to deposits in the fuel system

USAGE

- add to the fuel tank
- do not drive the tank completely empty
- suitable for gasoline systems with and without catalytic converter

Recommended:

- for a maximum of 60 liters of fuel
- for older vehicles around the 90s, or vehicles with carburetor

i.a. fitting for	universal
