

MATERIAL SPECIFICATION

TEXTAR

Textar T012

Main Vehicle Application

Mercedes

Main Brake Manufacturer/Type

S-Cam

Friction Material Release

OE lining material

Features and benefits

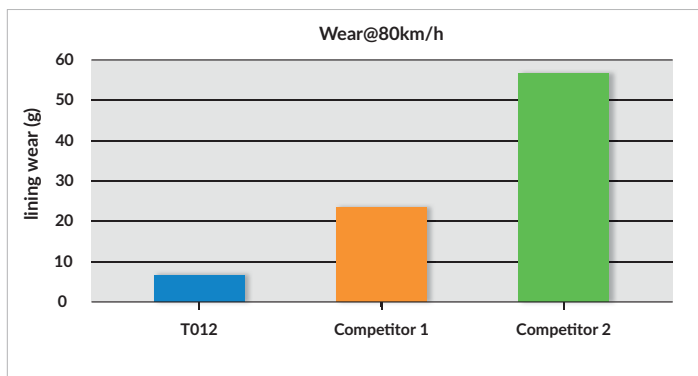

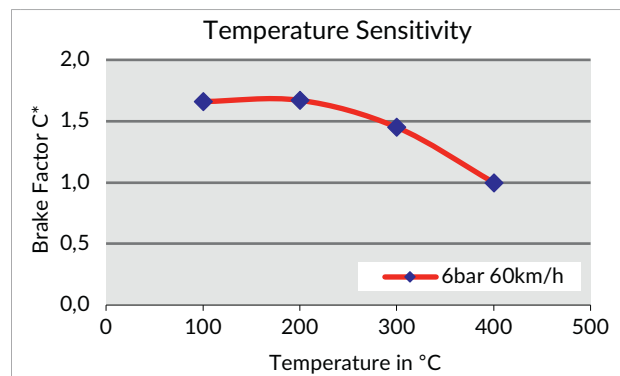

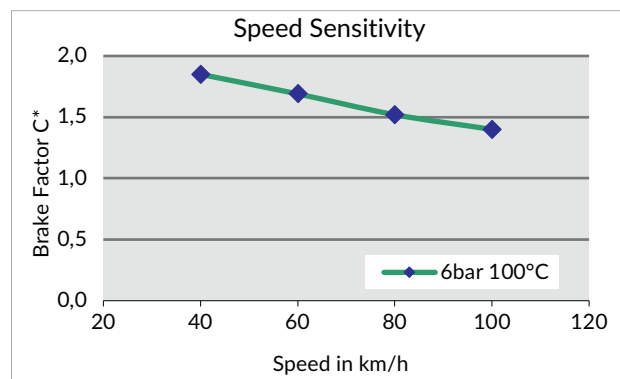

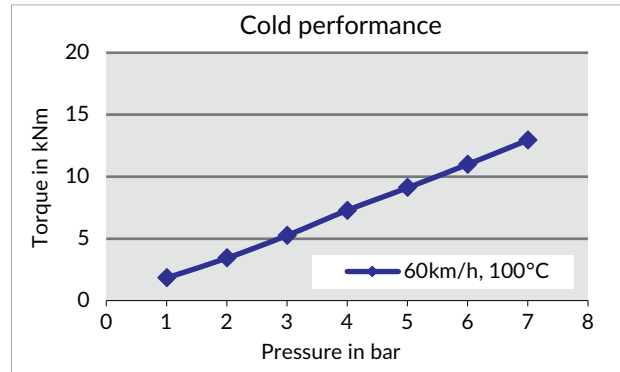

T012 is a material with good frictional stability, long life and excellent drum compatibility

General Description

Textar T012 is an OE pedigree material which has been used in the premium segment of the market. This material was developed for S-cam and Z-cam brakes for trucks and buses. Textar T012 is known for its frictional stability across many speeds and temperatures. This material has an excellent wear rate and it exhibits an excellent compatibility to the drum.

Friction Performance/Output

(tested on Mercedes/MAN S-Cam brake, 410x160 mm linings)
